

SUSTAINABLE CLASSROOMS

We have trained 240+ formal and informal educators on incorporating sustainable living education into their work throughout Middle Tennessee and have reached 45% of MNPS schools. We hope you'll join us soon!

TAILORED TRAINING

Choose a date and time that works best for you and your fellow educators.

Ideal for 3-30 educators. Suggested to schedule 4 weeks in advance.

BEST IF YOU:

-  have a less flexible schedule,
-  want to co-develop a strategy with at least 2 additional fellow educators or admin,
-  and want planning time geared more towards your specific needs.

Join us to gain:

Confidence,

-  Co-define sustainability and work to understand key issues, solutions, and opportunities.
-  Discuss how to use sustainability as a lens for education within any classroom.

Tools,

-  Leave with our TN-standards-aligned Sustainable Classrooms curriculum, Project Based Learning project, and student-led home investigations.
-  Review additional lessons, math and literacy extensions, educational frameworks, and resources to guide your work beyond our curriculum.

and Community!

-  Being trained automatically enrolls you into the upcoming Professional Learning Community of like-minded educators to collaborate, network, troubleshoot, and share lessons on a regular basis!
-  Training also earns points towards our [Urban Green Lab Certification](#) process.

Free for public and home school educators. Click [here](#) for a complete list of fees.

VIRTUAL HUB TRAINING

Join other educators from Davidson and surrounding counties.

Future trainings will be held on MNPS professional development days and during the summer.

BEST IF YOU:

-  thrive on connecting with other Nashville-area educators,
-  enjoy bringing back lessons-learned to your community,
-  and want planning and resources geared towards a general audience.
