

THE SECRET LIFE OF FOOD

URBAN GREEN LAB™

Working to end food waste in Nashville's schools.

What is the Secret Life of Food?

Perfect for: K–12 students

A fun, 1-hour **interactive lesson** that takes students from farm to tray and beyond, helping them understand food waste and **discover** simple ways to make a difference at school and at home.

Pricing
Businesses: \$500
Nonprofits: \$250

Students Will Be Able To:

- **Trace** the journey of food from farm to tray and identify the resources needed to produce a meal.
- **Explain** how food waste impacts people, the environment, and our communities.
- **Explore** solutions such as waste prevention, Share Tables, food rescue, and composting.
- **Identify** ways they can take action to reduce food waste in their school and community.

Extension: Cafeteria Food Waste Audit

Schools can request a **hands-on food waste audit** where students weigh and analyze cafeteria food waste to understand what is being thrown away and identify ways to reduce it.

Available upon request and staff capacity. Aligned with Tennessee Science Standards.
